Subject: 140 Lyell Street study session notice - objection feedback

Hi Mr. Persicone,

Our family would like to object the 5 units construction on the current one story single family residential site (140 Lyell Street). The density would be a lot higher with a 5 unit construction. Each unit has a one car garage. This would mean many cars will be parked on Lyell. Gabilan Street already has many cars on the street due to other units.

Many kids on our street are using the walking pathway between Lyell and Marvin to go to school, the additional traffic is not desirable--> more danger when the kids bike to school or go to down town.

Lydia Chan
280 Eleanor Ave.
